Dear Governor and Members of the Cabinet:

The Florida Department of Law Enforcement (FDLE) has completed the compilation of statewide crime statistics for 1989 through the Uniform Crime Reports (UCR) program. As a result, I am pleased to present, on behalf of Florida's law enforcement community, the 1989 Crime In Florida Annual Report.

This is the first year of complete data collected under Florida's enhanced UCR program. 1989 will serve as the benchmark for future year to year comparisons. In 1989, the crime volume showed a slight increase of 1.3% over the 1988 projected figures. However, the crime rate went down 2.0%, which is the first decrease since 1983. Statewide, for all serious crimes there were 1,395,902 victims of crime reported with an overall property loss of over $1.2 billion.

In addition to the seven Index Offenses of Murder, Rape, Robbery, Aggravated Assault, Burglary, Larceny and Motor Vehicle Theft, the enhanced UCR Program introduced an additional seven mandatory crimes/categories on which data are collected. For the first time this report contains information on the crimes of Forcible Sodomy, Forcible Fondling, Kidnap/Abduction, Drugs, Bribery Embezzlement and Fraud. These additional crimes/categories revealed that 115,828 individuals/business were victims of these crimes in 1989. Property loss in these areas was over $51 million.

The enhanced information now being collected is designed to further assist the criminal justice community to target where additional prevention and enforcement efforts are needed to better protect the citizens of Florida.

I want to thank each of you for your continued support of law enforcements efforts in Florida. I also want to express my appreciation to the dedicated law enforcement professionals statewide who make this report possible.

Sincerely,

James T Moore

Commissioner

THE FLORIDA DEPARTMENT OF LAW ENFORCEMENT

The Florida Department of Law Enforcement (FDLE) under the leadership of Florida's Governor and Cabinet, is a diverse agency offering a wide variety of services and technical assistance to local law enforcement agencies and the criminal justice community. In fiscal year 1989-90, the Department was authorized 1,349 positions and a budget of over $93 million. The Department is committed to excellence in the various programs and services it provides to the citizens of Florida and the criminal justice community. In order to achieve its mission and provide the needed services, FDLE is organized into five divisions and the Office of the Executive Director.

OFFICE OF THE EXECUTIVE DIRECTOR

- Formulates policy and provides overall command of and direction to the Department of Law Enforcement.
- Assures the Department functions in compliance with Florida Statutes, administrative rules, departmental procedures and productive management practices.
- Through its Office of Executive Investigations, provides investigative support for Governor-ordered investigations into public corruption.
- Provides for protection of the Governor and First Family.
- Conducts internal audits, reviews and inspections of FDLE Operations and programs through its Office of Inspector General to ensure compliance with governing laws, statutes, rules and regulations and to ensure maximum economy and efficiency.
- Conducts comprehensive character and fitness suitability investigations on applicants considered for employment with the Department.
- Ensures investigative policies, procedures, activities and administrative matters are legally sound through its Office of the General Counsel. This office prepares and presents cases for forfeiture of seized assets as well as decertification of law enforcement, corrections and correctional probation officers.

Please call 488-8771 for more information.

DIVISION OF CRIMINAL INVESTIGATION

- Provides investigative and technical assistance to local law enforcement agencies.
- Conducts long-term, complex and multi jurisdictional investigations into organized criminal activities.
- Provides for the collection, analysis, and dissemination of criminal intelligence information to appropriate criminal justice and other entities.
- Identifies emerging crime trends and the impact of organized crime on the State of Florida.
- Identifies and apprehends violators of various state laws for prosecution by Statewide Prosecutor's Office as the investigative arm.
- Provides technical engineering, planning and design for the Department's statewide radio system.
- Provides specialized electronic expertise on statewide field investigations and assists in training investigators in the use, maintenance and repair of technical electronic equipment.
- Coordinates the Fugitive and Career Criminal Apprehension Program, the Criminal Assessment Profiling Program, the Statewide Domestic Marijuana Eradication Program and Project DARE (Drug Abuse Resistance Education).
- Maintains accurate responsive automated Information Management System (IMS) which is critical to effective control of investigative resources and FDLE's ability to identify, investigate and apprehend criminals.

Please call 487-2901 for more information.

DIVISION OF CRIMINAL JUSTICE INFORMATION SYSTEMS

- Establishes and maintains the Florida Crime Information Center (FCIC) which collects, stores and disseminates criminal justice information to criminal justice agencies that is essential to their operation.
- Serves as Florida's central repository for arrest fingerprint cards and related data.
- Maintains an Automated Fingerprint Identification System (AFIS) to assist in the identification

of offenders.

- Provides criminal history records check services on persons seeking employment or licensing within certain agencies and to private entities pursuant to Florida's Public Records Law.
- Provides the criminal justice community, the Governor, Cabinet, Legislature and the general public crime and crime-related data for informative and/or decision-making assessments through the Uniform Crime Reports (UCR) program.
- Serves as the State's center for the collection, analysis and dissemination of information relating to missing children.
- Provides detailed technical training to criminal justice employers in the proper utilization of various criminal justice systems.

Please call 488-8852 for more information.

DIVISION OF CRIMINAL JUSTICE STANDARDS AND TRAINING

- Coordinates quarterly Criminal Justice Standards and Training Commission meetings.
- Distributes and administers the Criminal Justice Training Trust Fund.
- Functions as the licensing and regulatory arm of the Criminal Justice Standards and Training Commission for the employment and training of criminal justice officers.
- Maintains employment and training records for every certified criminal justice officer and certified criminal justice instructor in the state.
- Assures the continued delivery of quality training to all criminal justice officers by assessing and developing training programs.
- Promotes professionalism of criminal justice officers to attract and retain high quality personnel.

Please call 487-0491 for more information

DIVISION OF STAFF SERVICES

- Maintains personnel-related records and ensures personnel practices are consistent and in compliance with pertinent laws and rules.
- Coordinates tactical and strategic planning to address criminal justice issues and aid in establishing state and local criminal justice priorities.
- Develops periodic reports for the Governor, Cabinet and other governmental entities.
- Conducts research projects and staff work for the Executive Director.
- Publishes and promulgates internal policies and procedures.
- Provides administrative support functions for the Department including purchasing, finance and accounting, budget, property, buildings and printing.
- Coordinates sale/disposal of forfeited property for the Department.
- Assesses Department training needs and provides training programs for all Department personnel.
- Conducts detailed studies of the criminal justice system through the Florida Statistical Analysis Center (SAC).

Please call 488-9432 for more information.

DIVISION OF LOCAL LAW ENFORCEMENT ASSISTANCE

- Provides a statewide criminal analysis laboratory system to meet the needs of the Florida criminal justice system.
- Collects, analyzes, stores and disseminates crime specific intelligence data for use by local law enforcement agencies, thereby increasing the effectiveness of their investigative and enforcement efforts.
- Develops, prepares and distributes an assortment of publications relative to criminal intelligence and investigative information to the criminal justice community.
- Seeks, effects and maintains professional, credible and effective working relationships between local state law enforcement representatives.
- Provides administrative support and direction to the Medical Examiner's Commission, thereby assisting that Commission in carrying out its responsibilities under Chapter 406, Florida Statutes.
- Coordinates and provides staff support to the Florida Crime Laboratory Council.
- Coordinates mutual agreements between local and state law enforcement agencies to facilitate effective response to a broad range of emergency situations.
- Delivers advanced specialized training programs to law enforcement investigators and executives through the Executive Institute and Organized Crime Institute.

Please call 487-1806 for more information.

THE FLORIDA UNIFORM CRIME REPORTS PROGRAM

INTRODUCTION

Florida has always been a leader in the reporting and analysis of crime information and was one of the first states to develop an incident-based Uniform Crime Reports (UCR) program. In continuing our efforts to maintain the highest standards in data collection, analysis and dissemination of crime statistics, the UCR was significantly expanded and enhanced in 1988. This document, which is the nineteenth annual report and the twenty-third publication prepared by The Florida Department of Law Enforcement entitled Crime In Florida, presents more detailed information on crimes, victims, and arrests than has ever before been available. It is a compilation of statistical information collected from local, county and state law enforcement agencies throughout the year 1989.

PURPOSE AND OBJECTIVES

The Florida UCR program is designed to collect accurate crime data, as defined by State Statute and national Uniform Crime Reports definitions, from all law enforcement agencies in the State. The quantitative statistical reports derived from UCR data will provide assistance in determining the overall scope and nature of the reported criminal activity in Florida and will aid in making effective management decisions possible.

The fundamental objectives of the Florida UCR Program are to:

1. Inform the Governor, Cabinet, Legislature, criminal justice and other governmental officials and the public as to the nature of the crime problem in Florida, its magnitude and its trends;
2. Provide policy makers with a sound statistical basis for planning and guiding the criminal justice community;
3. Provide law enforcement administrators with crime statistics for administrative and operational use;
4. Describe the attributes of crimes and victims in order to help find the proper focus for prevention and to assist in measuring the effectiveness of prevention programs;
5. Describe the characteristics of arrested offenders and their offenses in order to help find the proper focus for enforcement efforts and to assist in measuring the effectiveness of targeted enforcement and deterrence programs;
6. Provide base data and statistics for research to understand crime in this State and to assist criminal justice agencies in the performance of their duties;
7. Provide base data for the determination of law enforcement manpower and training needs;
8. Provide data to assist in the assessment of the causes of crime for the development of theories of criminal behavior; and
9. Provide other states and federal criminal justice agencies with Florida crime data.

Overall, enhancing Florida's ability to collect, report and communicate criminal justice information can only improve the effectiveness of the criminal justice system. The mandates of Chapter 943, Florida Statutes, were enacted with the intention of enhancing this State's ability to efficiently manage such information.

HISTORY

In the 1920's the International Association of Chiefs of Police (IACP) envisioned a need for data regarding crime counts in the nation. The program initiated by the IACP gained congressional approval in 1930, and the Federal Bureau of Investigation (FBI) was authorized to compile nationwide crime counts. Since that time the FBI has acted as a clearinghouse for national crime information.

The Florida Legislature established the Uniform Crime Reports (UCR) statute in 1967 and revised it in 1971. This statute mandated the responsibility and authority for UCR data collection and dissemination in this State to the Florida Department of Law Enforcement (FDLE). In January 1971, FDLE began the systematic collection of monthly crime summaries from county and municipal law enforcement agencies.

Over the years, several minor modifications were made to the UCR program in response to requests from local agencies and the FBI. In January 1976, Florida was one of the first states to abandon the traditional method of collecting UCR data on a monthly basis and initiate a sophisticated offense-by-offense, or incident-based reporting program. Municipal police and county sheriff's departments reported the individual offense data known to them in the following crime categories: murder, non-traffic manslaughter, forcible rape, robbery, assault, burglary, larceny, motor vehicle theft and arson. They also reported supplemental offense information such as the number of victims, the value of property stolen and recovered, circumstances surrounding homicides and other pertinent crime data. Additionally, reports provided information concerning the age, sex, race and residency of all persons arrested by each individual law enforcement agency.

In 1985 and 1986, the Florida Legislature amended Chapter 943, Florida Statutes, creating specific mandates for the enhancement and expansion of the kind of data collected by the UCR program. The statute specifically calls for information to be compiled on the types of crime reported, offenders, arrests, and victims as they relate to the laws of Florida.

The changes mandated in Florida coincide with major revisions to the FBI's national UCR program. The range of offenses on which data must be collected has also expanded, and information is now available on incidents involving more than one reportable offense.

The major revisions to Florida's UCR program went into effect January 1, 1988. This annual report presents the new and enhanced data in new formats. The statistical information contained in this 1989 annual report represents the first full year of data under the enhanced UCR program. As a result, this year's data are presented without comparisons. Starting next year, the 1989 information can be used as the base for time series comparisons of future UCR data.

SOURCES OF DATA

There are currently 377 law enforcement agencies throughout the State contributing directly to the Florida UCR program. These include sixty-six (66) county law enforcement agencies and 289 municipal agencies (Office of the Sheriff-Consolidated City of Jacksonville is included in the municipal figures). In addition, five (5) state law enforcement agencies, nine (9) universities, two (2) county school police departments, four (4) airport police departments, the Seminole Indian Resevation and the Miccosukee Police Department submit data to the program.

Some of these law enforcement agencies have overlapping jurisdictions. To be certain that a crime is not counted more than once by overlapping jurisdictions, the following guidelines have been developed:

1. Police count crimes and arrests that occur within the city limits.
2. County law enforcement agencies count crimes and arrests for crimes that happen in the county outside the limits of cities.
3. A crime that occurs in one jurisdiction should not be counted by another city or county even though more than one agency participated in the investigation or arrest of the subject of that crime.

The purpose of these jurisdictional guidelines for reporting crime statistics is to accurately depict the nature and volume of crime in a particular community, not to measure the work load of any particular agency.

POPULATION FIGURES

The population figures used in this publication are complied by the Division of Population Studies, Bureau of Economic and Business Research, University of Florida. These population estimates, as of April 1, 1989, were produced under contract with the Executive Office of the Governor for incorporation into the 1989-1990 Revenue Sharing Program. The State of Florida currently has a resident population of 12,797,318, with an annual tourist population of 30.9 million. This is an increase of 3.0% over the 1988 population of 12,417,606.

REPORTING PROCEDURES

Information contained in this document originates on the reports written by Florida's 30,183 sworn law enforcement officers. Offense data are taken from the records of complaints received by law enforcement agencies from victims, witnesses or other sources, or discovered by agencies during their own operations. Complaints determined by subsequent investigations to be unfounded are eliminated from the count. The resulting data on individual offenses known to law enforcement officials in the reportable crime categories are reported, regardless of whether anyone is arrested, whether stolen property is recovered, local prosecutorial policy or any other consideration.

Each agency is responsible for completely and accurately transferring the information contained on officer's reports to FDLE for inclusion in the UCR data base. This involves reviewing the reports for all the required information, making decisions when necessary on the proper crime category to report, and ensuring that the data are properly coded for submission to the State program.

CRIME FACTORS

Many factors influence the reporting of offense incidents from the contributing agencies to FDLE. A very basic factor is whether citizens make the initial report that brings the incident to the attention of the law enforcement agency. Others include local report-writing policies, manpower allocations, the training received by officers on report-writing, the training police records personnel receive on UCR standards, and the decisions and discretion exercised by individuals at every step of the process.

In addition, there are constraints in the UCR program itself. Each incident report may contain a maximum of two (2) offenses, the two highest in an established hierarchy for any multiple offense situation (which are estimated to occur in only relatively rare incidents). In addition, the program is limited to a well-defined list of 25 reportable offenses. There are criminal activities which occur that the UCR program is not designed to collect. Local agencies must make the determination of which information is to be reported.

Once these decisions are made by local agencies, data are coded from the officers' reports and sent to FDLE. Information can be reported on paper forms, on magnetic tape or on floppy disks. Submissions may be daily, weekly or monthly from the originating agency.

VERIFICATION

An obvious concern in the collection of crime statistics for law enforcement agencies throughout the state is the uniformity and accuracy of data received. Regular statewide training and program aids such as guides and instructions help, but do not necessarily guarantee, the accuracy and correctness of the reports submitted by the contributors. Additional controls therefore are necessary.

All reports received by the State UCR program undergo extensive editing and checks for internal logic and consistency. When errors are detected, the records are reviewed, and the contributing agency is contacted to obtain the correct data. During these regular contacts, questions are answered and reporting rules are clarified for consistency overtime and across jurisdictions. In addition, local agencies receive reports of their own data to verify periodically. The commitment to quality and the responsibility for ensuring accuracy are shared by FDLE and UCR contributing agencies.

UCR PROGRAM FEATURES

INCIDENT AS BASIC UNIT

Since 1976, Florida's program has been incident-based. Prior to 1988, each incident was characterized by its one most serious offense, as determined by the offense hierarchy established by the FBI. Florida's UCR program continues to have the incident as its basic unit of measure. However, the enhanced program now calls for a more complete description of each incident and allows for the reporting of up to two (2) offenses that occur at the same location during the same time period. The incident is still characterized by the highest offense occuring, referred to as the primary offense. Any secondary offense reported is used to further describe the incident. For example, if a robbery and a murder occur at the same time and place, the incident is considered a murder (the primary offense), and the fact that a robbery also occured provides a better description of the circumstances of the murder.

Incidents involving the following crimes, in the listed hierarchy order, are reportable to Florida's UCR program:

Part I Mandatory Offenses

1. Murder and Non-Negligent Manslaughter

1.A. Negligent Manslaughter - Although considered a Part II offense, this crime remains within the Part I hierarchy.

2. Sex Offenses, Forcible
    - Forcible Rape
    - Forcible Sodomy
    - Forcible Fondling
3. Robbery
4. Aggravated Assault
5. Burglary/Breaking and Entering
6. Larceny/Theft
    - Pocket-picking
    - Purse-snatching
    - Shoplifting
    - Theft From Building
    - Theft From Coin-Operated Machine
    - Theft From Motor Vehicle
    - All Other Larceny
7. Motor Vehicle Theft

Part II Mandatory Offenses

8. Kidnapping/Abduction
9. Arson
10. Simple Assault
11. Drug/Narcotic Offenses
    - Drug/Narcotic
    - Drug Equipment
12. Bribery
13. Embezzlement
14. Fraud Offenses
    - False Pretenses/Swindle/Confidence
    - Games/Contract Procurement Credit
    - Card/Automatic Teller Machine Fraud
    - Impersonation
    - Welfare Fraud
    - Wire Fraud

Part II Optional Offenses

15. Counterfeiting/Forgery
16. Extortion/Blackmail
17. Intimidation
18. Prostitution/Commercialized Sex
19. Nonforcible Sex Offenses
20. Stolen Property-Buying, Receiving of Possessing
21. Driving Under the Influence
22. Destruction/Damage/Vandalism of Property
23. Gambling Offenses
24. Weapons Violations
25. Liquor Law Violations

All contributing agencies are required to report incidents involving the first fourteen (14) Mandatory Offenses and all persons reported missing. Automated agencies, submitting data on tape or disk, may opt to submit information on the additional eleven (11) Optional Offenses. All agencies report arrests using all twenty-five (25) crime categories plus the Miscellaneous/All Other category. All offense incidents and arrests must be reported by both the appropriate UCR code and Florida Statute number, unless otherwise noted.

As previously stated, up to two (2) offenses can be reported for each incident. When more than one distinct offense occurs in an incident, the hierarchy for reporting the offenses is used. Each offense reported must be a separate and distinct offense rather than part of another crime. For example, by its definition every robbery requires an assault as an element of the robbery. In such cases, only the robbery is reported. If during the robbery, the victim is killed, both the homicide and the robbery are reported as each is a distinct crime in which the elements of the crimes are not inter-related.

CLASSIFYING OF OFFENSES

Classifying means determining the proper offense category(ies) from the facts known about the incident to submit to the UCR program. When reviewing the incident, the local agency must first determine what distinct offenses occurred and whether the offenses were committed or attempted. (Attempts are counted as though the offense was committed.) Once the offenses have been identified, the two (2) offenses highest on the list of mandatory reportable offenses are submitted to the state UCR program. If only a single mandatory reportable offense occurred, it is submitted without any secondary offense. The only exception to this rule is when multiple Part I Offenses occur in conjunction with a Kidnapping or Arson, at which time both Part I Offenses are reported as well as the Kidnapping and/or Arson. This means that all Arsons and Kidnappings are reported because they are serious, although relatively infrequent, crimes.

HOW UCR OFFENSE COUNTS ARE DETERMINED

The UCR program counts one offense type reported for any incident. If multiple offenses are reported, the highest crime in the offense hierarchy is selected for establishing the crime counts. After the offense to be counted has been selected, the following methods are used for estabilshing the crime counts.

For the persons crimes of Homicide, Forcible Sex Offenses, Aggravated Assault, Kidnapping/Abduction, Simple Assault, Intimidation and Nonforcible Sex Offenses, one crime is counted for each victim reflected as having been a victim of the reported crime.

For the crimes of Robbery, Larceny, Arson, Drug Offenses, Bribery, Embezzlement, Fraud, Counterfeit/Forgery, Extortion/Blackmail, Prostitution, Stolen Property, Driving Under the Influence, Destruction/Damage/Vandalism of Property, Gambling Offenses, Weapon Violations and Liquor Law Violations, one crime is counted per incident regardless of the number of victims reflected as having been a victim of the offense.

For the crime of Burglary, one crime is counted for each number of premises entered or attempted to be entered.

For Motor Vehicle Thefts, a crime is counted for each vehicle stolen or attempted to be stolen.

INDEX OFFENSES

The first seven (7) offenses are referred to as Part I or Index Offenses. These offenses provide an indicator over time of variations in crime trends. They are the basis for standard crime rates and clearance rates. In 1988 the Florida Index crimes were modified to include the new Forcible Sex Offenses of Forcible Sodomy and Forcible Fondling, so comparisions to previous years' Index volumes and rates are not advisable. Florida's new UCR program constitutes a break in the time series data and begins a new foundation for future comparisons.

The Index Offenses in the enhanced program were chosen using the same criteria used in the 1930's by the International Association of Chiefs of Police (IACP) to select the offenses to be reported to the original UCR program. These criteria are: (1) seriousness or significance of the offense; (2) the frequency or volume of its occurrence; (3) how widespread the offense occurs across jurisdictional boundaries; (4) whether the offense will come to the attention of law enfocement; (5) whether law enforcement is the best channel for collectiong data regarding the offense; and (6) the statisitical validity and usefulness of the collected data.

It should be noted that the Index crimes should not be considered "serious crimes" alone. A minor shoplifting counts equally in the Index with a murder. Many serious crimes, such as kidnapping, fraud and embezzlement, are not included in the Index due to one or more of the listed criteria. The Index does serve as a stable indicator of a variety of types of offenses and allows for comparisons to be made across jurisdictions and over time.

In reviewing crime Index figures, the reader should keep in mind that there is currently no way of determining the total number of actual crimes committed. The crime Index has been established to measure only the instances of particular crimes which come to the attention of law enforcement agencies. The relationship to total crimes reported and unreported unfortunately has never been conclusively established; and therefore, fluctuations in the crime Index may or may not adequately reflect changes in the total crime picture. Also, the crime Index identifies the number of actual incidents known to law enforcement agencies, not the number of criminals who committed them or the number of victims involved. The seven (7) Index Offenses are grouped into two categories-violent crimes and nonviolent crimes.

Index Violent Crime

Index crimes of violence include Murder, Forcible Sex Offenses, Robbery and Aggravated Assault. Violent crimes involve the element of personal confrontation between perpetrator and victim and, because of their very nature, are more serious than nonviolent crimes. These offenses for the year 1989 made up 13 percent of all reported Index Offenses.

Index Nonviolent Crime

For UCR purposes, nonviolent Index crimes include the offenses of Burglary, Larceny and Motor Vehicle Theft. The number of nonviolent crimes reported for 1989 was more than six (6) times the number of violent crimes amounting to 87 percent of all Index crimes reported.

NON-INDEX OFFENSES

There are eighteen (18) offenses that are listed as Part II Mandatory and Part II Optional which are not part of the crime Index and are not used to calculate standard crime rates or standard clearance rates. They are used to generate Florida's comprehensive crime and clearance rates. With the exceptions of Arson, Simple Assault and Negligent Manslaughter, no data were previously reported on these criminal incidents. However, the Part II Mandatory Offenses are crimes about which law enforcement professionals in Florida requested further information to be collected and reported. The Part II Optional Offenses are not reported in this publication, and there are no previous years' data available. Information will continue to be collected on the Optional Offenses and evaluated for its future usefulness.

CRIME RATES

The standard crime rate equals the number of Index crimes per 100,000 resident population. In Florida, a comprehensive crime rate is calculated based on all Mandatory Part I and Part II Offenses. It should be noted that the crime rate only takes into consideration the numerical factor of population and does not incorporate any of the other elements which contribute to the amount of crime in a given community. The effect of changes in population, particularly population density, should be kept in mind when attempting to make a comparison of crime rates. In addition, transient or visitor population is not considered in the calculation of the crime rate.

Although multiple offenses may be reported for an incident, only the highest crime within the hierarchy is counted for the purpose of determining crime rates. It should be noted that the Forcible Sex Offense category has been expanded to include Forcible Sodomy and Forcible Fondling. These crimes may have previously been recorded under the Aggravated Assault category and included in the crime rate as a part of the Aggravated Assault total; however, comparisons of these crimes should only be made with extreme caution.

It should be noted that every reported Index crime counts equally in the calculation of the crime rate. A jurisdiction that experiences a large increase in the number of shopliftings, perhaps due to the construction of a new mall, may show a sharp increase in their crime rate even if violent crimes decrease.

The 1989 standard crime rate for Florida is 8,755.9 offenses per 100,000 inhabitants. During 1989, Index violent crimes accounted for 1,136.7 offenses per 100,000 population, while the Index nonviolent crime rate amounted to 7,619.1 offenses per 100,000 population. Florida's comprehensive crime rate based on all Mandatory Part I and Part II Offenses is 10,670.6 per year.

CLEARANCE RATES

For UCR purposes, an incident is cleared when a very specific set of circumstances occurs. Through investigation it may be determined that the offense did not occur, so the complaint is false or baseless, and that incident is unfounded. An incident is cleared by arrest when at least one person is arrested, charged with the commission of the offense and turned over to the court for prosecution even if charged with a lesser offense. The arrest of one person can clear several crimes or several persons may be arrested in the process of clearing one crime. Clearances may also be counted in exceptional cases where:

1. The investigation has definitely established the identity of the offender;
2. There is enough information to support an arrest, charge and prosecution;
3. The agency knows the exact location of the offender so that he or she could be taken into custody; and
4. There is some reason beyond law enforcement control that prevents the arrest, charging and prosecution of the offender.

For the first time, in 1988 Florida's UCR program began requiring the reason for the exceptional clearance to be reported. Clearances, as in the past, are based upon reported incidents. If more than one offense is reported for an incident, clearance of one offense clears the entire incident. Only one clearance per incident is collected and counted for the purposes of determining clearance rates. Standard clearance rates are calculated as the percent of Index crimes which are reported cleared. These figures include clearances that occur in the current year regardless of the date of incident. In 1989, 234,305 Index clearances were reported, and 1,120,515 Index Offenses were reported, for a clearance rate of 20.9 percent. The percentage of Index violent crimes cleared was 47.5 percent, while the clearance rate for Index nonviolent crimes was 17.0 percent. Florida's comprehensive clearance rate, based on all Mandatory Part I and Part II Offenses is 27.9 percent.

It should be clearly understood that UCR clearance rates are only one of many measures of law enforcement effectiveness. There are many other justifications for successfully closing a case at the local level that do not qualify as a UCR clearance. Factors such as the nature of the offense, victim or witness cooperation and physical evidence also influence the local agency's ability to clear an incident. Another factor is that, under the jurisdictional reporting rules of UCR, the agency that makes the physical arrest does not necessarily report it; arrests and clearances are reported by the agency having jurisdiction over the offense, regardless of who makes the arrest.

DATA COLLECTED

The information collected for each incident is the same, regardless of the type of offense(s) being reported. This includes details of location; weapons uses; offenses; statutes violated; types of victim; age, race, sex and residency of victims; and victims' relationship to offenders. In addition, if the circumstances of the incident call for it, supplemental detailed information may be reported on property and vehicles stolen, recovered, seized or damaged; officers assaulted; homicide circumstances; and missing persons.

The reporting of new offense types (for example, Fraud) creates additional property reported stolen and recovered that would not previously have been recorded by UCR. Values reported recovered may relate to a previous years' case.

Missing Persons information is reported to UCR even though it is not a crime in Florida to be missing. Florida police chiefs and sheriffs requested that Missing Persons data be mandatory for UCR due to the seriousness of the problem for law enforcement and the lack of any reliable state-level statistics for assessing it.

ARRESTS

All agencies are required to submit arrest information for Part I Mandatory, Part II Mandatory and Part II Optional Offenses, as well as all other miscellaneous arrests (excluding noncriminal traffic). Since Missing Persons is not an offense, arrests are not reported in that category as had been done with recovered juveniles in past years. An arrest is counted for each person each time he or she is arrested, summonsed or given a notice to appear in court. If more than one person is arrested for the same crime, each is reported and counted as an arrest. It is important to note that arrests relate to individual persons, while offense incidents relate to events.

For the first time, up to four multiple charges can be reported for an individual arrested. Only the highest crime within the hierarchy is used to determine the appropriate arrest category and to calculate arrest rates. All arrest on criminal violations must be supported by State Statute, except local ordinaance violations dealing with liquor and weapon laws. Previously, all ordianance arrests were reportable. When reviewing arrest figures, it should be remembered that arrest counts do not reflect the specific number of persons arrested since one individual person may be arrested several times during any given year for the same or different offenses.

Each agency reports arrests for offenses that occured in their jurisdiction, not arrests made by their personnel for crimes that happened elsewhere. Reported arrests do not necessarily result in formal charges being filed. An arrest is entered for a juvenile if he or she has committed a crime and is taken into custody under such circumstances that if the juvenile were an adult, an arrest would be entered. This holds true even if the juvenile is released to parents, friends, or social service agencies. It is not necessary that official charges be placed with a court or juvenile authorities. Arrests reported in the current year may be for crimes that occured in previous years.

Data collected on arrests reflect the age, race, sex, residency and citizenship of the person arrested; whether a weapon was seized at the time of the arrest; whether the arrestee was under the influence of drugs or alcohol; charges; and the police disposition on juvenile arrestees.

USE OF UCR DATA

UCR data are reported to contributing agencies for verification and administrative uses periodically throughout the year. The Florida UCR Program, by examining the various characteristics of offense and arrest data, provides statistical analysis reports to help law enforcement personnel throughout the State in crime prevention, enforcement and general criminal justice administration. Semi-Annual and Annual reports are published, as required by Florida Statutes. All UCR data, whether published routinely or not, are subject to the Public Records Act, and the UCR staff respond to special requests for crime information on a regular basis.

In addition to Crime In Florida, two (2) other annual reports are published based on UCR data. The first is the Law Enforcement Employee Data report, which contains information on the number of sworn and civilian personnel of Florida's law enforcement agencies. The second is the Law Enforcement Officers Killed and Assaulted report, which provides information on the circumstances involved when law enforcement officers are attacked. In addition, reports on special topics based on UCR data will be released at least once a year.

When using UCR data, it is important to understand the definitions of the data and their limitations. Crime data may be characterized in different ways for different purposes. In addition to the distinctions between violent and nonviolent crimes already noted, reference is also common to crimes against persons, property or society. Other salient features for comparison may be attempted vs. committed, dollar loss, personal injury, weapon use, location or specific victim characteristics.

When analyzing UCR data, it is advisable to seek the assistance of FDLE's UCR staff or personnel from contributing law enforcement agencies. Such assistance is readily available to anyone seeking a better understanding of UCR guidelines and procedures. UCR data provide a powerful tool for understanding and responding to crime in Florida, and it is our shared responsibility to use these statistics conscientiously.

FLORIDA STATISTICAL ANALYSIS CENTER

The FDLE's Florida Statistical Analysis Center (SAC) analyzes UCR data and other criminal justice data bases. The Florida SAC is part of a national network of state statistical analysis centers originally funded through the Bureau of Justice Statistics. The role of the SAC is to provide system-wide analysis of the criminal justice process in Florida. The SAC provides technical assistance concerning the collection, analysis and dissemination of criminal justice statistics throughout the State of Florida. The Florida SAC maintains a number of UCR data bases retormates for applied statistical analysis. Criminal justice researchers may obtain a copy of the Florida SAC's data base directory upon written request to the FDLE.

CONCLUSION

The information collected for this report portrays the most accurate and realistic assessment available of the crime situation in Florida. It represents the first of a new series of documents that will present more detailed and comprehensive descriptions of offenses, victims and arrestees than ever before available. UCR statistics are not designed as an indicator of agency activity for use in direct comparisons but pertain to specific geographic areas. However, reported crime activity is a measurable and describable entity and, as such, should be used to present the clearest possible picture of the dimensions, fluctuations and impact of crime in the State of Florida.

SEX OFFENSES, FORCIBLE

DEFINITION

Any sexual act directed against another person, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent.

FORCIBLE RAPE

The carnal knowledge of a female, by a male, forcibly and against her will or where the victim is incapable of giving consent because of her youth or because of her temporary or permanent mental incapacity.

FORCIBLE SODOMY

Oral or anal sexual intercourse with another person, using either personal sex organs or objects to commit the act, forcibly and/or against that person's will; or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental incapacity.

FORCIBLE FONDLING/INDECENT LIBERTIES/CHILD MOLESTATION

The touching of the private body parts of another person, using either an object or human contact to commit the act, for the purpose of sexual gratification, forcibly and/or against that person's will or not forcibly or against the person's will where the victim is incapable of giving consent because of his/her youth or because of his/her temporary or permanent mental incapacity.

Clarifying Notes

The element of force or threat of force is necessary before a sexual offense is reported in this category. Any sexual act or attempt accomplished by force is classified as a Forcible Sex Offense regardless of the age of the victim or the relationship of the victim to the offender. Statutory rape is not counted in the Forcible Rape category as no force is used.

ROBBERY

DEFINITION

The taking, or attempting to take, anything of value under confrontational circumstances from the control, custody or care of another person by force or threat of force or violence, and/or by putting the victim in fear.

Clarifying Notes

As a general rule, Robbery differs from Larceny in that it is aggravated by the element of force or threat of force to the victim. The victim, who usually is the owner or person having custody of the property, is directly confronted by the perpetrator and is threatened with force or fear that force will be used.

AGGRAVATED ASSAULT

DEFINITION

An unlawful attack by one person upon another where either the offender displays a weapon, or the victim suffers obvious severe or aggravated bodily injury involving apparent broken bones, loss of teeth, possible internal injury, severe laceration or loss of consciousness.

Clarifying Notes

As a general rule, all felonious and Aggravated Assaults are classified in this category. Not included are assaults with intent to rob or rape. Attempts to commit these crimes are reported in the categories of Robbery or Rape.

An assault, or threat of an assault, with any weapon or item used as a weapon other than hands, fists and feet, is classified as an Aggravated Assault. It is not necessary that injury be inflicted.

When personal weapons (hands, fists and feet, etc.) are used, the victim must be seriously injured by personal weapons. Usually this involves a broken bone or injury so severe that the victim should be admitted to a hospital beyond mere emergency room treatment.

BURGLARY/BREAKING AND ENTERING

DEFINITION

The unlawful entry into a building or other structure with the intent to commit a felony or theft.

Clarifying Notes

As a general rule, one Burglary is reported for any unlawful entry or attemped forcible entry of any dwelling house, attached structure, public building, shop, office, factory, storehouse, apartment, house trailer, warehouse, mill, barn, other building, ship or railroad car. If there is apparent unlawful entry and the offender has not completed an act or the actions or intent of the offender are unknown, it is reported as a Burglary. Any time there is an uncertainty as to why entry was made to a structure, it is reported as a Burglary.

Any time force of a physical nature has been used in order to gain entrance to a premise, the attemped Burglary is reported.

Breaking into a vehicle is not reported as Burglary but as a Larceny.

Breaking into a telephone booth coin box or other coin operated devices is also classified as Larceny.

LARCENY/THEFT OFFENSES

DEFINITION

The unlawful taking, carrying, leading or riding away of property from the possession, or constructive possession, of another person.

POCKET PICKING

The theft of articles from another person's physical possession by stealth, where the victim usually does not become immediately aware of the theft.

PURSE-SNATCHING

The grabbing or snatching of a purse, handbag, etc., from the physical possession of another person.

SHOPLIFTING

The theft by a person, other than an employee of the victim, of goods or merchandise exposed for sale.

THEFT FROM BUILDING

A theft from within a building which is either open to the general public or where the offender has legal access.

THEFT FROM COIN-OPERATED MACHINE OR DEVICE

A theft from a machine or device which is operated or activated by the use of a coin or token.

THEFT FROM MOTOR VEHICLE (EXCEPT "MOTOR VEHICLE PARTS/ACCESSORIES")

The theft of articles from a motor vehicle, whether locked or unlocked.

ALL OTHER LARCENIES

All thefts which do not fit any of the definitions of the specific types of larceny previously listed.

Clarifying Notes

Embezzlement; fraudulent conversion of entrusted property; conversion of goods lawfully possessed by bailees, lodgers, or finders of lost property; obtaining money or property by false pretenses; larceny by check; larceny after trust; and larceny by bailee are all classified as either Fraud or Embezzlement.

Thefts from rented property or from property which has been rented are not classified as Larceny. This type of incident is considered a Fraud, i.e. defrauding an innkeeper, failure to return rented property, etc.

APPENDIX
GLOSSARY OF TERMS

GLOSSARY OF TERMS

ADULT — For Florida Uniform Crime Reports purposes, a person age 18 or above.

ARREST — A person is considered arrested for Uniform Crime Reports purposes when physically taken into custody or detained to issue a Notice to Appear by a law enforcement officer.

ARREST RATE — The number of arrests reported for all Part I and Part II Mandatory and all Optional Offenses for each unit of population, generally per 100,000. Arrest rates are computed for communities with varying populations by dividing the number of Total Arrests by the population and multiplying the answer by 100,000. (Example: 500 Total Arrests divided by 10,000 population x 100,000 = 5,000 Arrest Rate.)

CLEARANCE RATES — The percent of reported offenses that are cleared. Clearance rates are calculated by dividing the number of clearances by the number of offenses reported.

CLEARED BY ARREST — For crime reporting purposes, an offense is cleared by arrest or solved when at least one person is (1) arrested, (2) charged with the commission of the offense, and (3) turned over to the court for prosecution.

COMPREHENSIVE CRIME RATE — The total number of Part I and Part II Mandatory Offenses reported for each unit of population. Crime rates are computed for communities with varying populations by dividing the number of crimes by the population and multiplying the answer by 100,000. (Example: 500 Offenses divided by 10,000 population x 100,000 = 5,000 Crime Rate.)

CRIME FACTORS — Conditions which affect the volume and type of crime that occurs in a geographical area.

CRIME INDEX — The sum total of seven major offenses used to measure the extent, fluctuation and distribution of crime in a given geographical area. Crime classification used in the Index are: Murder, Forcible Sex Offenses, Robbery, Aggravated Assault, Burglary, Larceny and Motor Vehicle Theft. Each of these offenses is referred to as an "Index Offense".

EXCEPTIONAL CLEARANCE — A crime solution or clearance recorded when some element beyond law enforcement control precludes the placing of formal charges against an offender.

INCIDENT — An event where one or more offenses that occur at the same location during the same time period.

INDEX NONVIOLENT CRIME--Consists of the Index Offenses of Burglary, Larceny and Motor Vehicle Theft.

INDEX VIOLENT CRIME—Consists of the Index Offenses of Murder, Forcible Sex Offenses, Robbery and Aggravated Assault.

JUVENILE — For Florida Uniform Crime Reports purposes, a person under the age of 18.

OUT OF COUNTY — FLORIDA — A person who resides within the State of Florida, but outside the county in which the report is made.

OUT OF STATE—NON-RESIDENT—A person who resides outside the State of Florida, but committed crime(s) in the State of Florida.

OPTIONAL OFFENSES — Eleven offenses categories that may be reported by automated agencies at their discretion. Arrest information is reported by all agencies on all offenses. See page 4.

PART I MANDATORY OFFENSES — The seven Index crimes that are mandatory to be reported to the UCR program. See page 4.

PART II MANDATORY OFFENSES — Eight additional offense categories that were requested by Florida sheriffs and police chiefs to become mandatory for reporting to the Uniform Crime Reports program. See page 4.

PRIMARY OFFENSE — Highest offense occurring within an incident.

SECONDARY OFFENSE — A second offense used to further describe the incident.

STANDARD CRIME RATE — The number of Index Offenses reported for each unit of population, generally per 100,000. (Calculated using the same formula as the comprehensive crime rate.)
